RE: Physical Evaluation of Applicant

Applicant Name: _____ Date: _____

The above named individual has applied to Joppa-Magnolia Volunteer Fire Company (JMVFC) for active membership as a firefighter and/or Emergency Medical Services (EMS) provider.

Any person classified as a firefighter, regardless of their present job assignment, must be able to perform fire suppression duties in order to be considered for full duty. Firefighters are responsible for performing in an environment that may expose them to extreme heat, toxic products of combustion, and hazardous materials. They also may be required to lift; operate heavy machinery; carry, raise, and climb ladders up to 110 feet tall; drive fire apparatus under emergency conditions; and assist with emergency medical services, such as lift and carry patients weighing in excess of 150 lbs. as a part of a two man team. Studies have shown that firefighter may experience a heart rate of 85 – 100% of their maximum capacity and that this level may be sustained for long periods of time.

The duties of an EMS provider require them to respond to medical, fire and hazardous material emergencies and use lifesaving skills under extremely stressful conditions. As a result, they may be exposed to infectious disease, toxic products of combustion, hazardous vapors, temperature extremes, and a sustained level of stress. Their duties also include lifting, moving and carrying patients in excess of 150 lbs. and equipment in excess of 50 lbs.

My signature indicates that the above-named applicant has no medical contraindications to becoming a firefighter and/or EMS provider.
